Summary

Motivated Business Intelligence Analyst skilled in SQL, Python, Power BI, Tableau, and Excel with hands-on experience in dashboard development, KPI reporting, business metrics analysis, and data visualization.

Skills

Programming & Querying: SQL, Python, MySQL

Data Visualization: Power BI, Tableau, Microsoft Excel

Python Libraries: Pandas, NumPy, Matplotlib

Core Concepts: Data Cleaning, EDA, KPI Reporting, Dashboard Development, Data Visualization, Trend Analysis, Business Analysis, Business Metrics Analysis, Sales Reporting

Soft Skills: Communication Skills, Analytical Thinking, Problem Solving, Reporting

Experience

Android App Development Intern

Feb 2026 – May 2026

MindMatrix (Remote)

Kotlin, Firebase, Android Studio

- Developed Android application modules using Kotlin and Firebase for project-based implementation tasks.
- Worked on UI improvements, debugging, feature integration, and application workflow optimization.
- Participated in software development workflows and application testing during internship activities.

Projects

Superstore Sales Dashboard | *Power BI, SQL, Excel* | GitHub

2026

- Analyzed 10,000+ sales records using SQL and Power BI to identify regional profitability and customer purchasing trends.
- Developed 15+ KPI dashboards and visual reports using Power BI for sales reporting and business analytics.
- Created 20+ SQL queries for business metrics analysis, sales reporting, and profitability tracking.

Customer Churn Analysis | *Python, Pandas, Matplotlib* | GitHub

2026

- Performed churn analysis on 7,000+ telecom customer records to identify retention trends and churn-prone customer segments.
- Used Python, Pandas, and Matplotlib for data preprocessing, exploratory data analysis, and visualization.
- Generated business insights using customer tenure, monthly charges, and behavioral analysis techniques.

SQL Retail Analytics Case Study | *SQL, SQLite, Python* | GitHub

2026

- Designed and analyzed a retail analytics database containing 12,500+ transaction records and 46 advanced SQL business queries.
- Performed KPI reporting, cohort retention analysis, profitability analysis, and customer segmentation using SQL.
- Implemented ETL validation pipelines, indexed schema optimization, and automated SQL verification workflows.

Certifications

- **SQL (Intermediate)** – HackerRank
- **Python (Basic)** – HackerRank
- **Data Analysis using Excel** – Great Learning
- **TATA GenAI Powered Data Analytics Job Simulation** – Forage
- **Power BI Fundamentals** – Microsoft Learn

Education

AMC Engineering College

2023 – 2026

Bachelor of Engineering (BE) - Computer Science Engineering

CGPA: 8.2 / 10

DACG Government Polytechnic, Chikkamagaluru

2020 – 2023

Diploma in Computer Science Engineering

CGPA: 8 / 10
